Life in our Faith Community

APPLIED SUICIDE INTERVENTION SKILLS TRAINING

Join us in building a suicide-safer community.
ASIST is an evidence-based, internationally recognized two-day workshop.

By attending ASIST, you will be able to recognize when someone has thoughts of suicide and work with them to create a plan for safety.

We invite all types of caregivers including faith leaders, health care providers, counsellors, support workers, first responders, youth workers, teachers and administrators to attend this training.

"The comprehensive nature of the course, the expertise of facilitators and the opportunity to learn from peers worked to strengthen my confidence and skills immeasurably."
